

# ICM-17

## Chassis TFT-Monitor 17"

### overview:

- TFT / LCD monitor chassis
- screen diagonal 17"
- Interface RGB analog / DVI
- optional HDMI / DP
- mounting via VESA 75
- longterm availability
- customizations possible

### Description:

The ICM-17 chassis monitors are specifically designed for use in industrial environments. The monitors can be mounted on support arms or similar fixtures using a VESA mount. With a stand, they can also be used as desktop monitors. The robust housing allows for operation even in the harshest environments, including 24-hour continuous use. The standard models feature both an analog VGA input and a DVI input.

### technical data:

#### **overview:**

17" industrial TFT / LCD monitor chassis for support arms or desktop monitor

#### **Resolution:**

max. 1280x1024

#### **Brightness:**

min. 250cd/qm

#### **Contrast:**

800:1

#### **Interface:**

VGA DVI, optional HDMI / DP

#### **Adjustments:**

via On Screen Menü

#### **MTBF:**

Backlights min. 35000h

#### **controls:**

Touchscreen (Option)

#### **power supply**

90/260 VAC internal

#### **mechanical dimensions:**

case: about 380 x 319 x 60 mm

#### **material:**

case: steel

#### **environmental conditions:**

operating: 0-50°C

storage 0-65°C

humidity: 10 - 80 % rel. humidity

not condensing

#### **norms:**

EMV: EN55022 EN55024 EN61010-1
